Description

DESCRIPTION
The H.C.B-A1980 BMW Clutch Alignment Tool is designed for the Manual Transmission in the BMW 1 Series (E88) and BMW 2 Series (F22). It is a precision-machined tool used to align the clutch disc during the assembly of the transmission. The tool features a central shaft with a threaded end and a base that fits into the transmission housing. It is made of high-quality steel and is finished with a chrome plating for durability and corrosion resistance. The tool is suitable for use on both front-wheel drive and rear-wheel drive vehicles. It is a essential tool for any mechanic working on the transmission of these BMW models.
