Description

SELF TAPPING THREADED INSERT KIT (29 PCS)
This kit is designed for the repair and restoration of damaged threads in metal components. It contains 29 pieces of self-tapping threaded inserts, which are used to restore the original thread profile in a damaged area. The inserts are made of a high-strength material and are designed to provide a secure, long-lasting repair. The kit includes a detailed instruction manual and a set of specialized tools for installation.
