Description

DESCRIPTION

The H.C.B-B1713 is a specialized tool designed for the removal and installation of the fuel injector seal on Jaguar and Land Rover engines. It consists of a long, thin metal rod with a black handle and a small black component at the end. The tool is used to reach into the engine and manipulate the fuel injector seal.

FEATURES

- Long, thin metal rod for reaching into the engine.
- Black handle for easy grip.
- Small black component at the end for manipulating the fuel injector seal.

APPLICATIONS

- Removal and installation of the fuel injector seal on Jaguar and Land Rover engines.

CAUTION

Use the tool carefully to avoid damage to the engine components.
