Description

DESCRIPTION
H.C.B. B1980 BMW CLUTCH ALIGNMENT TOOL
This tool is used to align the clutch disc with the input shaft of the transmission.
It is made of high quality steel and is very durable.
It is easy to use and does not require any special skills.
It is a must-have tool for any BMW owner.
It is available in two versions: with and without a handle.
The version with a handle is more comfortable to use.
The version without a handle is more compact and easier to store.
Both versions are of the same quality and are made of the same material.
The price is the same for both versions.
The version with a handle is more popular and is sold more often.
The version without a handle is sold less often.
Both versions are of the same quality and are made of the same material.
The price is the same for both versions.
