Description

DESCRIPTION
The H.C.B-IV1023 is a differential bevel pinion gasket installer. It is used to install the gasket on the pinion of the differential. The tool is made of high quality steel and is very durable. It is easy to use and does not require any special skills. The tool is available in two versions: with and without a handle. The version with a handle is more comfortable to use. The version without a handle is more compact and easier to store. The tool is suitable for all IVECO engines. It is a very useful tool for anyone who works on IVECO vehicles.
